📍 Los Angeles, CA

🌐 andyoon.co

Calm and compassionate frontend engineer with over 7 years of experience proactively solving problems and creating responsive applications, ensuring clarity in code, documentation, and UX. Seeking to help improve processes and amplify global impact with high-quality approach and a keen eye for detail. At EnterpriseAlumni, took ownership and delivered multiple 6-month initiatives on time and excelled in leading teams of 4-7.

Experience

Lead Software Engineer, EnterpriseAlumni

Sep 2019 – Feb 2023, Los Angeles, CA

- ▶ Developed and architected up to 8 projects per year in React and Angular, promoted to team lead in Oct 2021.
- ▶ Mentored and managed team of 4 frontend developers; led multidisciplinary team of 7 to deliver major new features.
- ▶ Implemented a complete platform redesign, collaborating with product owners and designers to craft intuitive UI/UX.
- ▶ Managed and executed remediation to achieve ADA AA compliance, reduced critical accessibility issues by 80%.
- ▶ **Key achievement:** Developed Next.js app, designed UI/UX, acted as Scrum Master to build new authentication service.

Senior Frontend Developer, Hyundai AutoEver America

Nov 2017 – Sep 2019, Irvine, CA

- ▶ Implemented content and maintenance for Kia.com in Angular and Vue.js, serving over 13M visits per month.
- ▶ Spearheaded Scrum process improvements to optimize estimations and velocity, reduced meeting times by 33%.
- ▶ **Key achievement:** Designed innovative Vue.js system within Adobe Experience Manager to solve limitations, enabling modern and performant UX and DX.

Software Developer, Composite Apps

Oct 2015 – Oct 2017, Irvine, CA

- ▶ Created full-stack business apps in Angular, Spring, SQL.
- ▶ Communicated clear priorities and schedules to clients and managers, adapting to sudden changes in requirements.
- ▶ Led team of 3 and mentored a software developer intern on a web+iOS project.
